# It's Loose Fill With A Twist

## 100% Natural, Completely Biodegradable, and 100% Fun!

Specialty shaped biodegradable loose fill is an exciting new in-the-box packaging material that offers retailers, boutiques, and online shippers a competitive marketing edge. The fun shapes are “the bow inside the box” that makes the customer’s un-boxing experience more exciting. Plus, they’ll appreciate knowing it can be easily disposed without concern for creating more unmanageable waste.

Our Dog Bone shaped loose fill is the first introduction to the product line. This has proven to be a successful application for the pet industry’s retail gift packaging and online order fulfillment shippers. Available in a range of colors, Dog Bones can be customized to reflect a corporate brand or other specific needs.

## Competitive and Creative!

FunPak packaging is priced to be competitive with other types of packaging materials. With 20 production facilities across North America, FunPak can be manufactured and delivered quickly. Contact your Storopack representative to learn more about minimum quantity specifications.

## Get Creative!

We’re working to develop more shapes to fit other product marketing. Just let us know what we can do for you!
