

AIRplus[®] 30% Recycled Extra Light

ECONOMICAL AND
SUSTAINABLE

AIRplus® 30% Recycled Extra Light IS SUSTAINABLE PROTECTIVE PACKAGING, LIGHT AS A FEATHER.

Storopack AIRplus® 30% Recycled Extra Light film is ideal for companies shipping light to medium-weight products. At 0.6mil the film is extra thin compared to other AIRplus® solutions supporting sustainability. Even at 35% reduced thickness the solution ensures perfect product protection. With approximately

60% more film on each roll compared to other AIRplus® films, the frequency of roll changes is reduced. This results in less handling, making AIRplus® Extra Light a particularly economical solution. Additionally it's made from 30% recycled material and can be recycled easily after use.

AIRplus® 30% Recycled Extra Light AT A GLANCE

- ▶ MADE OF 30 % POST-CONSUMER RECYCLED MATERIAL
- ▶ IDEAL FOR LIGHT TO MEDIUM-WEIGHT PRODUCTS
- ▶ LESS MATERIAL NEEDED WHILE ENSURING THE SAME LEVEL OF PROTECTION
- ▶ REDUCES CO₂ EMISSIONS THANKS TO LESS RAW MATERIAL USAGE AND RECYCLED MATERIAL
- ▶ LESS HANDLING COSTS DUE TO MORE PACKAGING MATERIAL WITH ONLY ONE SHIPMENT AND LESS ROLL CHANGES
- ▶ RECYCLABLE AND EASY TO DISPOSE OF
- ▶ AVAILABLE AS VOID FILM

Eco-friendly and efficient:
AIRplus® 30% Recycled Extra Light has 60% more film on each roll reducing handling.

STOROPACK – PERFECT PROTECTIVE PACKAGING

Wherever in the world you send your products, we want them to be well protected while in transit.

AIRplus® TRANSFORMS AIR INTO THE OPTIMAL PROTECTIVE PACKAGING.

Our AIRplus® packaging system optimally protects your products with air cushions in a variety of forms. Whether wrapping fragile shipping goods or filling voids, AIRplus® air cushions are versatile, especially light, reduce transport costs, and can be reused or recycled.
