## Product Performance

- Will not adhere or transfer to the product being packaged
- Superior cohesive coating, ensuring the integrity of your product in both in-house and in-transit shipping
- Tough, tear and puncture resistant outer layer
- Air tight – moisture resistant outer layer will protect your products from the outside elements
- Foam absorbs impact better than single-faced corrugate
- Products packaged using our cohesive laminates will arrive in safe and in perfect condition

## Cost Savings

- Simplifies the packaging steps needed to pack your items, saving time and labor, as well as saving you money overall
- By conforming to your packaged products' shape, our cohesive laminates use only the material required for product coverage and thereby reducing packaging

## Reduces Damage in Transit

- Our cohesive wrap will lock your item in place; forming an airtight seal, eliminating damage through rubbing and abrasion, offering superior cushioning for all shipping methods
