PAPERplus® Classic CX

ROBUST AND EFFICIENT

STOROpack

PERFECT PROTECTIVE PACKAGING

PAPERplus® Classic CX MEANS SAFE, FAST AND EFFICIENT PACKAGING.

The paper cushioning system PAPERplus® Classic CX from Storopack produces robust yet flexible paper cushions, which adapt to the shape of the shipping goods, providing optimum protection even for heavy goods within the box.

Thanks to perforated paper, the individual cushions can be easily separated from each other, meaning that the machine does not need a blade.

PAPERplus® Classic CX draws the paper directly from a pallet and is therefore ideal for high throughput. Also, users can choose between different settings and thus benefit from safe and ergonomic work processes.

LESS HANDLING THANKS TO PAPER ON PALLET

The paper is fed via a pallet, which enables particularly long operation. Once the supply has been used up, replenishment can be provided in just a few simple steps. Quick and effortless threading of the continuous paper guarantees that the machine is immediately ready for use again.
