

PAPERplus® Classic CX

ROBUST AND EFFICIENT

PAPERplus® Classic CX MEANS SAFE, FAST AND EFFICIENT PACKAGING.

The paper cushioning system PAPERplus® Classic CX from Storopack produces robust yet flexible paper cushions, which adapt to the shape of the shipping goods, providing optimum protection even for heavy goods within the box.

Thanks to perforated paper, the individual cushions can be easily separated from each other, meaning that the machine

does not need a blade. PAPERplus® Classic CX can draw the paper directly from a pallet and is therefore ideal for high throughput. Also, users can choose between different settings and thus benefit from safe and ergonomic work processes.

LESS HANDLING THANKS TO PAPER ON PALLET

The paper is fed via a pallet, which enables particularly long operation. Once the supply has been used up, replenishment can be provided in just a few simple steps. Quick and effortless threading of the continuous paper guarantees that the machine is immediately ready for use again.

STOROPACK – PERFECT PROTECTIVE PACKAGING

Wherever in the world you send your products, we want them to be well protected while in transit.

PAPERplus® MEANS FOCUSING ON OPTIMAL AND SUSTAINABLE PROTECTION.

Whether filling voids, cushioning from impact shock or blocking and bracing goods against transport damage: Storopack's PAPERplus® paper cushioning offers all-around perfect protection for your packaged goods, whether they're small and fragile or bulky and heavy. Our product portfolio is just as diverse as the protective functions of PAPERplus®.
