

FOAMplus® 5504

LIGHTWEIGHT AND
YET FIRM AND CUSHIONING

FOAMplus® 5504 COMBINES SOURCE REDUCTION WITH EXCEPTIONAL PACKAGING PROPERTIES.

Storopack's 5504 foam is ideal for companies who ship medium to heavy products that need superior cushioning but still want to use lightweight packaging. 5504 foam is the foam on the market that protects the widest ranges of static loads, thus reducing the need for several foams. Adding to that it uses less foam while still

providing the same cushioning strength than competitive foam solutions therefore providing source reduction. This reduces purchasing, warehouse and disposal processes ensuring fast and efficient work.

FOAMplus® 5504 AT A GLANCE	
Convenient	▶ COMPATIBLE WITH ALL FOAM PACKAGING SYSTEMS FROM STOROPACK
Efficient	▶ HIGHER YIELD IN FOAM VOLUME USING LESS MATERIAL MAKING PACKAGE LIGHTWEIGHT
Secure	▶ SUPERIOR CUSHIONING TO KEEP YOUR PRODUCTS SAFE
Source Reduction	▶ REDUCED HANDLING COSTS DUE TO LESS PURCHASES, AND FEWER DRUM DISPOSALS
	▶ LESS MATERIAL WASTE
	▶ REDUCED SHIPPING WEIGHT
	▶ LESS FOAM NECESSARY BECAUSE OF SUPERIOR PROTECTION PROPERTIES
Sustainable	▶ FOAMplus® 5504RC WITH RENEWABLE CONTENT AVAILABLE
	▶ CAN BE REUSED DUE TO OUTSTANDING DURABILITY

5504 RC - SUSTAINABLE SOLUTION

To reduce dependence on conventional foams, we also offer a plant based alternative that is partly made from renewable content from sugar canes. 5504RC is the sustainable alternative to polyurethane foams.

STOROPACK – PERFECT PROTECTIVE PACKAGING

Wherever in the world you send your products, we want them to be well protected while in transit.

OPTIMAL PROTECTION WITH FOAM PADDING

Our FOAMplus® packaging system protects your products using true-to-contour padding made of shock-absorbing polyurethane. Foam padding from Storopack is environmentally friendly as it is lightweight, reduces transport costs, and can be re-used for the same products.
