

FunPak®

PET, PEOPLE, AND PLANET
FRIENDLY

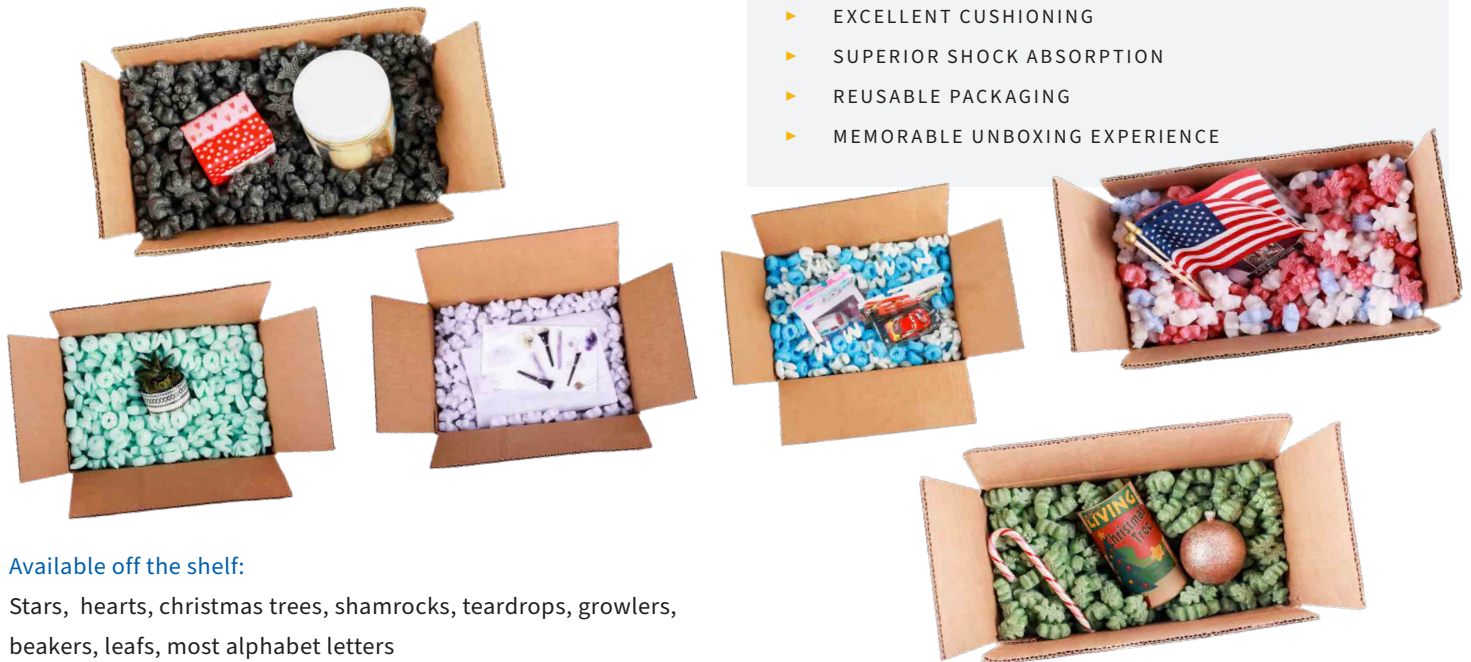

FunPak® IS COMPOSTABLE AND UNIQUE PACKAGING MADE FROM RENEWABLE RESOURCES.

FunPak® Loose Fill is plant-based packaging material that can be designed in different fun shapes. It fills voids, effectively blocks and braces products inside the box, and is exceptionally resistant to shocks and high pressure. Use fun shaped packaging material to enhance your customer's unboxing experience, and support your marketing and branding. As FunPak® is made from renewable plant-based raw materials it can also be composted. While there are several shapes available off the shelf, contact your Storopack representative to learn more about customized shapes.

**WHAT DOES
YOUR PACKAGING
SAY TO YOUR
CUSTOMERS?**
