AUTO.CLOSE by **Storopack**
SECURELY SEALED IN SECONDS

AUTO.CLOSE MEANS GETTING BOXES READY FOR SHIPPING SECURELY AND EFFICIENTLY.

The Storopack AUTO.CLOSE module speeds up your packaging process. The machine closes the top of the prepacked carton and reliably seals it using water-activated tape, self-adhesive tape, or hot-melt adhesive. Optionally, the base can also be sealed. As a result, parcels of different sizes can be processed in any random order, without the need for manual intervention.

AUTO.CLOSE also lets you choose between different sealing types: U-shaped for standard parcels (with optional pull strip), C-shaped for extremely flat cartons, or T-shaped for the optimum sealing of heavy consignments.

EXCEPTIONALLY SECURE

Sealing the box with bio-based, water-activated tape is not only resource-friendly, but also theft- and tamper-proof, as it cannot be removed without damaging the box. What's more, the water-activated tape is exceptionally customer-friendly, as the box and the tape can be disposed of together for recycling.

Working Automation

In an era of high parcel volumes and labor reallocation, the question of greater throughput and independence from the labor market is becoming increasingly urgent. Our Working Automation portfolio has the answer. Our modular system offers the right solution for every requirement, from the automation of individual steps of the process through to almost fully automated packaging. It is geared toward the needs of your company.

- ▶ AUTO.ERECT: ERECTS THE CARTON AND SEALS THE BASE
- ▶ AUTO.PROTECT: PADS THE GOODS AND FILLS VOIDS
- ▶ AUTO.MINIMIZE: REDUCES PARCEL DIMENSIONS
- ▶ AUTO.CLOSE: FOLDS AND SEALS THE SHIPPING-READY CARTON

PACKAGING LOGISTICS MEASURABLY BENEFITS YOUR PACKAGING PROCESS.

Whether you are seeking to expand, modernize, or fully overhaul your existing packing area, Storopack is on hand with help and support.

Based on your requirements, we will work with you to develop a tailored solution for maximum efficiency in your packaging process, from delivery of the picked goods through to the palletization of the shipping-ready cartons. You can choose between optimizing individual

packing functions or the entire process, thereby taking the productivity of your packaging operations to a new level with Storopack.

We will review which solution offers the greatest productivity boost for each step of your process, taking into account your existing components and/or integrated modules from our portfolio.

WE UTILIZE THE FOLLOWING PORTFOLIOS TO DEVELOP YOUR SOLUTION:

Working Automation

Our automated solutions allow you to benefit from an optimum material flow and free up human resources, even when parcel volumes are high.

Working Comfort®

Our solutions for ergonomically designed workstations raise the bar when it comes to manual packing. As such, the various stages of the packaging process can be handled easily and efficiently.
