RENATURE® Thermo

SUSTAINABLE AND EFFECTIVE

RENATURE® Thermo IS ALL-AROUND PROTECTION MADE FROM RENEWABLE RAW MATERIALS.

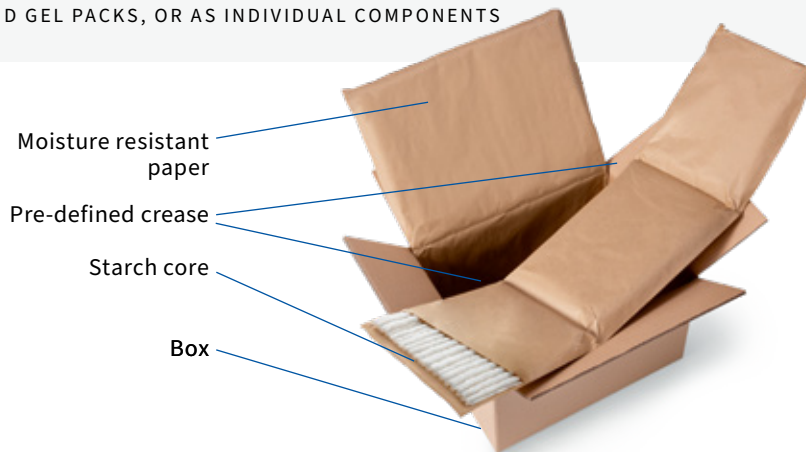

With RENATURE® Thermo, Storopack offers proof that temperature-sensitive products, such as food and pharmaceuticals, can be transported both sustainably and at exactly the right temperature. RENATURE® Thermo constitutes ultra light weight combined with high insulation and consists of moisture resistant paper and a home compostable core material mainly made from plant based starch as an industrial by-product.

The two cushioning panels effectively cover all six sides around the shipping goods for perfect protection within the box keeping perishable goods safe and sound.

After use, the solution is easy to dispose of: consumers can separate the two components and dispose of them as recyclable paper and the plant-based starch via the home compost.

RENATURE® Thermo AT A GLANCE

- ▶ MAINLY MADE FROM RENEWABLE RAW MATERIALS
- ▶ THE PAPER SLEEVE CAN EASILY BE DISPOSED OF AS RECYCLABLE PAPER
- ▶ THE STARCH FILLING MATERIAL CAN BE DISPOSED OF VIA HOME COMPOSTING
- ▶ THE LOW DENSITY SAVES RESOURCES, ENSURES A LOW WEIGHT COMPARED TO OTHER SOLUTIONS AND KEEPS TRANSPORT COSTS LOW
- ▶ THE TEMPERATURE IS RELIABLY KEPT WITHIN THE DEFINED RANGE, EVEN WHEN IT'S HOT OUTSIDE
- ▶ AVAILABLE AS A COMPLETE SET, COMPRISING BOX, INSULATING PANELS AND GEL PACKS, OR AS INDIVIDUAL COMPONENTS

Easy to use:

The U-shaped design with a pre-defined crease facilitates a fast, straightforward, and ergonomic packing process, as the goods are ready for shipping in the box in just a few steps.

STOROPACK – PERFECT PROTECTIVE PACKAGING

Wherever in the world you send your products, we want them to be well protected while in transit.

RENATURE® Thermo COMBINES TEMPERATURE CONTROLLED PACKAGING AND SUSTAINABILITY.

Storopack's RENATURE® Thermo mainly made from paper and plant-based starch is the eco-friendly solution for shipping temperature-sensitive products. Thanks to the outstanding insulating properties, the temperature in the shipping carton is reliably kept while using renewable, easy to dispose of materials.
